

Automate your production... Accelerate your profits!

MODULINE

Automated solution for any production process

Our Moduline System is designed for customers looking to increase business profits by automating their production. Designed specifically to meet any automation need while keeping your production and payback concerns in mind. This unique design enables you to select multiple automation options regardless of your production demands.

Moduline Seam Types:

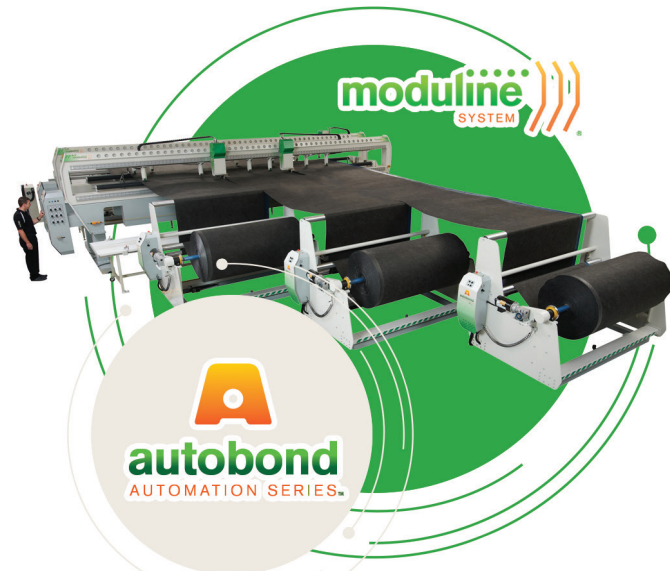

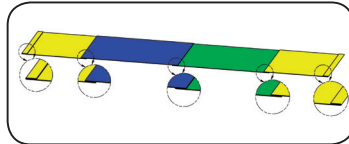

MODULINE MULTIPLE ROLL

Weld multiple layers simultaneously

The Moduline Multiple Roll System is used for the production of large covers, truck tarps and tarpaulins. This automated system welds large rolls together. The unwinds and welding stations will increase in-house efficiency and production output.

Moduline Multiple Roll System Seam Types:

i4500 SYSTEM

I4500

Automated curtain producer weld horizontal/vertical

The I4500 is designed to weld all narrow webbings as well as wide reinforcement strips. This recipe driven curtain producer will enable your operator to easily finish your vertical webbing and seams effortlessly. All webbings are pre-fed, pre-cut and precisely positioned with no measuring.

I4500 Seam Types:
