

Automate your production... Accelerate your profits!

MODULINE

Automated solution for any production process

Our Moduline System is designed for customers looking to increase business profits by automating their production. Designed specifically to meet any automation need while keeping your production and payback concerns in mind. This unique design enables you to select multiple automation options regardless of your production demands.

Moduline Seam Types:

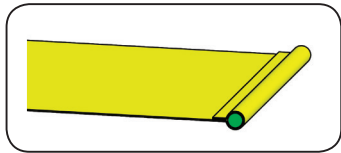

m.100

Single layer awning manufacturing

The M100 Single Panel System pulls fabric off roll and welds hems and hem and rope on both edges. The M100 is built to fit your exact needs and will greatly increase production.

M100 Single Panel Seam Types:

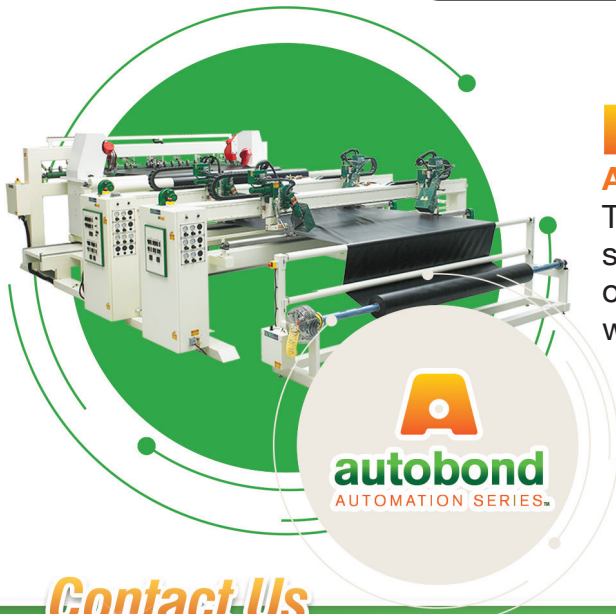

m.100

Automate awning, shade and screen finishing

The M100 Mesh is designed for finishing edge work simultaneously. It can be configured for inserting grommets on both edges. The M100 is built to fit your exact needs and will greatly increase production.

M100 for Mesh Seam Types:
