

Automate your production... Accelerate your profits!

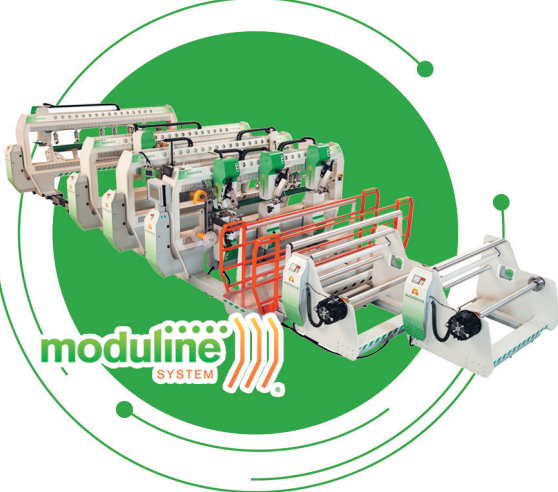

MODULINE

Automated solution for any production process

Our Moduline System is designed for customers looking to increase business profits by automating their production. Designed specifically to meet any automation need while keeping your production and payback concerns in mind. This unique design enables you to select multiple automation options regardless of your production demands.

Automation Capabilities

- Guillotine
- Guiding
- Sewing
- Printing
- Grommet
- Rewind
- Sitting
- Gluing
- Sweep
- Unwind

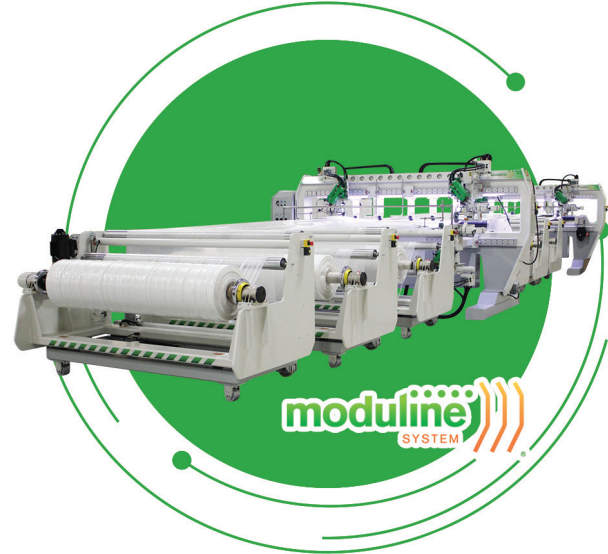

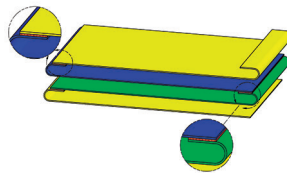

MODULINE MULTIPLE ROLL SYSTEM

Weld multiple layers simultaneously

The Moduline Multiple Roll System is used for the production of large covers or liners. This automated system welds rolls together. The unwinds, weld stations and rewinds increases efficiency by reducing the number of welds taking place outside the factory or in the field.

Moduline Multiple Roll Seam Types:

M100 THREE ROLL C-FOLD SYSTEM

Weld, fold and rewind reducing product size

The M100 Three Roll C-fold System is designed to weld three rolls simultaneously. Product is then folded in half making a compact size product reducing in-field installation time and increasing in-house efficiencies.

M100 Seam Types:
