

Automate your production... Accelerate your profits!

MODULINE

Automated solution for any production process

Our Moduline System is designed for customers looking to increase business profits by automating their production. Designed specifically to meet any automation need while keeping your production and payback concerns in mind. This unique design enables you to select multiple automation options regardless of your production demands.

Moduline Seam Types:

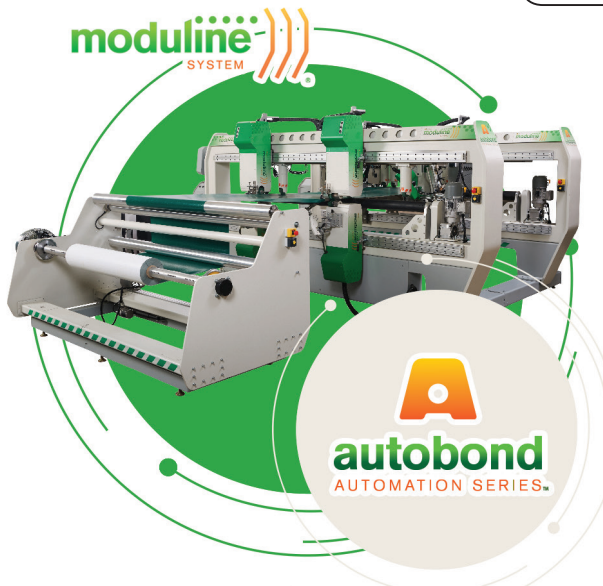

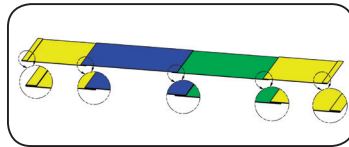

MODULINE MULTIPLE ROLL

Weld multiple layers simultaneously

The Moduline Multiple Roll System pulls fabric off multiple rolls and welds overlap seams and hems on both edges. The Moduline is built to fit your exact needs and will greatly increase production.

Moduline Multiple Roll System Seam Type:

MODULINE KEDER FINISHING

Finish, grommet and keder all in one pass

The Moduline Keder is a completely automated production process. From overlaps and hems to grommets and keder, the Moduline will do all welding in one pass. It is able to cut your panels to specific lengths and will greatly increase production while decreasing labor costs.

Moduline Seam Types:
