

SP-3525BS-M/MJ

自动POLO衫门襟机

Automatic polo shirt placket machine

性能优势

自动POLO衫门襟机通过红外线定位，人工放料位置更精准，自动送料、自动缝纫、自动切口(单刀/双刀可选)、自动收料一次性完成。

效率

13秒可完成一件POLO衫衣襟缝纫及开口
一人可同时操作两台机器，大大提高产品质量，效果提升。

适用范围

主要用于POLO衫衣襟缝纫及开口工序

Advantages

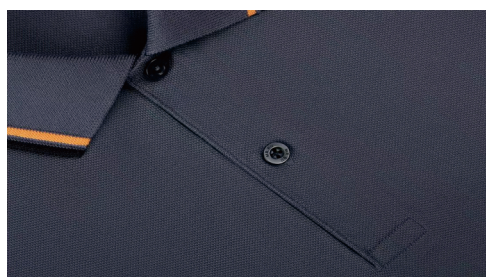

The automatic POLO shirt placket machine is positioned by infrared rays, and the manual feeding position is more accurate with automatic feeding ,automatic stitching ,automatic cut (single knife/double knife optional)and automatic collection finished in one time .

Efficiency

13 seconds to complete a polo shirt placket sewing and opening
One person can operate two machines at the same time, which greatly improves the product quality and the effect.

Application

Mainly used for polo shirt placket sewing and opening process
