

THE LASER DUAL

LASER MACHINE WITH MANNEQUIN AND DUAL SOURCE SYSTEM

DESCRIPTION

Laser machine designed for **doubling process productivity** thanks to the **dual laser source system** that allows for simultaneous work on both the legs of a mannequin, with the Tonello's signature 360° laser effect. Thanks to the dual laser source, **the marking times are reduced by up to 50%**. It has a solid and compact design that maximizes productivity and flexibility.

It is controlled by **CREA**, the new laser software that offers endless creative solutions and makes every operation simple, intuitive, and rapid.

TECHNICAL FEATURES

Power	600W
